

Sebastian Grochocki

I was born in 1988 in Łódź, Poland. From 2007 to 2008 I was studying at the Department of Education Studies of University in Łódź. In 2008 I started to study at the Department of Graphics and Painting at the Academy of Fine Arts in Łódź.

During the studies I took part in „Drawing Workshops Harena 2012” that took place in Zakopane. In the same year 2012 I was a co-founder and curator of the „Pomiędzy Gallery” at the Academy of Fine Art in Łódź. During my short gallery custody I organized two exhibitions. First exhibition that I prepared took place on 9th of March 2012 year. It was titled „Students of the Department of Printmaking” and it presented works made by students of the Faculty of Graphics and Painting at Academy of Fine Arts in Łódź. In the end of the year I got a Scholarship of the Minister of Science and Higher Education of Poland for outstanding achievements for the year 2012. In June 2013 I participated in the 2nd Creativity Workshops at the Art and Culture Center - The Kossak Manor House in Górkki Wielkie. I also achieved the 1st Zofia Kossak Award in the competition accompanying this workshops. In 2013 I got a Award of the Minister of Culture and National Heritage of the Republic of Poland for outstanding artistic achievements and the second Scholarship of the Minister of Science and Higher Education of Poland. In October I took a part in 6th Split Graphic - International Graphic Art Biennial where I got the Young Artists Award. I also got the 1st Award in the 7th Contest of Small Graphic Forms for students of the Strzemiński Academy of Fine Arts in Łódź, that took place in Amcor Gallery on 20th of June. In 2014 I started to work in a graphic design studio - „Dots 'n Lines Studio” (dotsnlines.co.uk). My experiences with old traditional printmaking techniques started to mix with modern graphic design. I started to learn how to design responsive websites and mobile applications.

I got a master degree diploma with honors in September 2014. I made my diploma project at the Woodcut Techniques and Artistic Book Studio under the supervision of Professor Dariusz Kaca. It was a series of graphics made mostly in plaster relief print technique. It was inspired by a Greek mythology, especially with the myth of the fall of Ikarus, and with the myth about the son of the god of the Sun, Phaethon. I have taken part in over 40 plain-air, workshops and exhibitions in Poland and abroad. My works are placed in collections of museums and artistic institutions inter alia in Hungary, Macedonia and Poland. At the moment I am dealing with graphic design and printmaking, mostly with large-size graphics made in plaster relief print technique and woodcut technique. I am also an artistic director of the First International Print Biennial Łódź 2016 (lodzprints.com). Since 2016 I have been cooperating with many artist and designers who deal with photography, movie making, 3d modeling and web coding to create my own best professional group of multidiscipline art which took place in my art studio called Sebiko Studio where artists can deal with old traditional graphing techniques and take modern commercial and cultural challenges like creating the International Print Biennial Łódź (sebikostudio.com). I am also a member of Art and Design Society in Łódź.
